PROFILE

Frontend-focused developer skilled in HTML, CSS, Bootstrap, and responsive web design. Built UI-centric projects including streaming platform replicas. Currently strengthening JavaScript fundamentals and learning TypeScript, with the goal of becoming a full-stack developer.

PROJECTS

PeerInSync (Collaborative Project)

- Developing a collaborative web application in a team environment
- Responsible for frontend development using React.js, Material UI, and Bootstrap
- Built responsive and interactive UI components to enhance user experience
- Integrated frontend with backend services (Node.js, MongoDB)
- Collaborating using Git and GitHub for version control
- Live Link: <https://peer-in-sync.vercel.app/>

Netflix Clone (Responsive)

- Built a responsive Netflix-inspired UI using HTML, CSS, and Bootstrap
- Converted a static layout into a mobile-friendly design using Bootstrap grid
- Replicated key sections like navbar, banners, and content rows
- Live Links: <https://devmahida.github.io/Netflix-replica/>

Personal Portfolio Website

- Designed and developed a responsive portfolio using HTML, CSS, and Bootstrap
- Showcased projects with a clean and structured UI
- Deployed using Vercel
- Live Link: <https://devmahida-portfolio.vercel.app/>

Doob Website

- Built responsive layout using HTML, CSS, and media queries
- Implemented mobile-first design without using frameworks
- Ensured layout adaptability across different screen sizes
- Live Link: <https://devmahida.github.io/Doob-Website/>
